**Dear Author name**

**Re: Title & number**

We are pleased to be able to write to you to confirm that the above Poster has been accepted, following consideration by the Scientific Committee. The scheduling of the overall Congress timetable, and your Poster in particular, will take place by 30<sup>th</sup> April. Therefore you need to be available to present on any of the three days of the actual Congress, i.e. Friday 2<sup>nd</sup> to Sunday 4<sup>th</sup> June 2023.

With regards to Congress Registration, the WCCBT 2023 rules are clear, in that:

- All presenters must register for the Congress in order to present their work (security staff will not allow them to enter the Congress areas and rooms otherwise).
- Please email [program@wccbt2023.org](mailto:program@wccbt2023.org) to confirm that you have registered, including any differences between the form of your name used for registration vs. your presentation (if applicable) to help us match this data.
- Presentations will be removed without notice from the Scientific Programme, Book of Abstracts etc. if the presenter does not register prior to their production.
- Please refer to the WCCBT 2023 website (<https://wccbt2023.org/>) for further details regarding registration and do bear in mind the Early Bird reduced rate registration deadline is 24<sup>th</sup> March (Korean Standard Time: GMT +9).

Further information about preparing your poster and the required format will be sent to you in due course as well as made available on the Congress website.

Finally, thank you for your submission and contribution to the World Congress Scientific Programme, which is now taking shape, and should make WCCBT 2023 a truly unique and global CBT meeting.

Yours sincerely,

*WCCBT 2023 Scientific Steering Committee*
